

This paper consists of two sections: A and B. Answer Question 1 in Section A and any other three question in Section B.

Answer all the questions in the spaces provided in this question paper. At the end of the examination, you should submit the entire question paper to the invigilator.

Any candidate who tears off any part of the question paper will be severely penalized.

Whether you answer all the questions in this paper or not, hand in the entire question paper to the invigilator

Credit will be given for clarity of expression and orderly presentation of material.

SECTION A  
[24 marks]  
Answer Question 1  
[Compulsory]

1. (a) The Figure 1 below is a structure of a school's network system. Study it and use it to answer the questions below

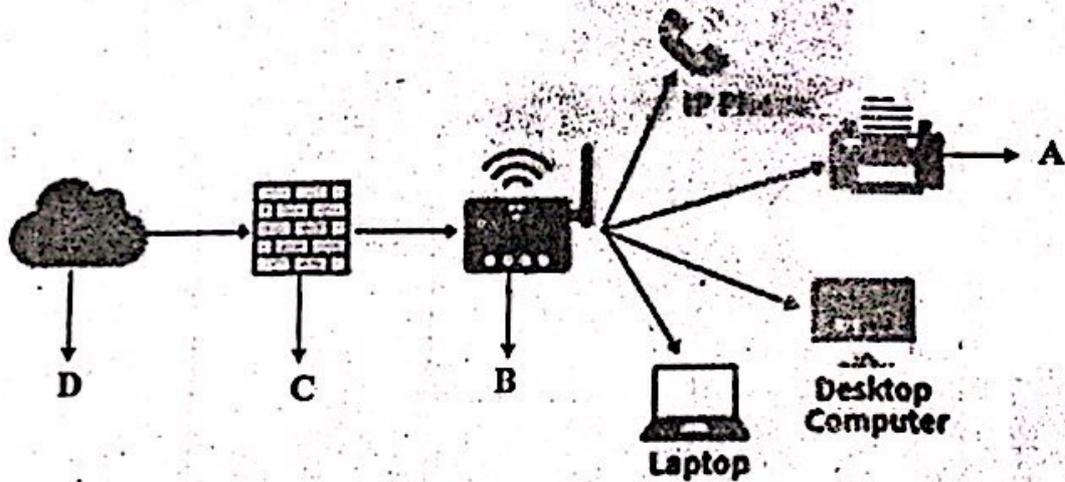

Figure 1

- (i) A school wants to protect its internal network from unauthorized access from the Internet. Which device in the diagram performs this function?

.....  
[2 marks]

i) Teachers complain that they cannot access online learning websites. Which component connects the school network to the global network?

.....  
[2 marks]

(iii) A student connects a laptop to the school network without using a cable. Which device enables this wireless connection?

.....  
[2 marks]

(iv) The ICT teacher explains that data must pass through a security device before reaching computers. Which device checks and controls incoming and outgoing data?

.....  
[2 marks]

(v) The Internet connection is disconnected, but computers can still communicate with each other. Which device makes this possible?

.....  
[2 marks]

(vi) The school wants all devices to share one Internet connection safely. Name two (2) devices in the diagram that help achieve this.

.....  
.....  
[2 marks]

(vii) Identify the parts labelled A, B, C and D in the image 1 above.

.....  
.....  
.....  
[4 marks]

b) (i) Outline the steps to add an attachment to an email.

.....

(iv) Data Modification

.....

.....

.....

[2 marks]

(b) Table 2 contains data to be used in programming. Complete the table by indicating, against each data the data type to be used when writing the programming code.

#	Data	Data Type
i	Name of a person	
ii	Age of a person	
iii	Date of birth of a person	
iv	True or False	

Table 2

[4 marks]

4. (a) (i) Explain the term 'wearable computer'.

.....

.....

[2 marks]

(ii) Give three (3) examples of wearable computers.

.....

.....

.....

[3 marks]

(iii) State any two (2) applications used by wearable computers.

.....

.....

[1 mark]

(b) State *three* (3) important aspects of scratch?

.....  
.....  
.....  
[6 marks]

5. (a). Explain the following as used in Microsoft Excel or Spreadsheet Application;

(i) *Templates*

.....  
.....  
.....  
[2 marks]

(ii) *Macros*

.....  
.....  
.....  
[2 marks]

(b) (i) State *two* (2) techniques hackers use on their victims.

.....  
.....  
.....  
[4 marks]

(ii) Outline *two* (2) differences between Bluetooth and Wi-Fi?

.....  
.....  
.....  
[4 marks]

END OF ESSAY TEST

Answer all the questions

Each question is followed by four options lettered A to D. Find the correct option for each question and shade in pencil on your answer sheet the answer space which bears the same letter as the option you have chosen. Give only one answer to each question. An example is given below:

Which of the following is an input device?

- A. Monitor
- B. Stylus
- C. Projector
- D. Speaker

The correct answer is Stylus, which is lettered B and therefore answer spaces B would be shaded. [A] ~~[B]~~ [C] [D]

Think carefully before you shade the answer spaces; erase completely any answers you wish to change.

Do all rough work on this question paper

Now answer the following questions

1. The process of dividing the disk into tracks and sectors is called
  - A. Tracking
  - B. Allotting
  - C. Crashing
  - D. Formatting
2. Complex scientific research is usually done using
  - A. Microcomputers
  - B. Supercomputers
  - C. Minicomputers
  - D. Mainframe computers
3. The main component that formed the basis for the second generation of computers was
  - A. Vacuum tubes
  - B. Transistors
  - C. Registers
  - D. Integrated circuits
4. Which of the following is the secondary storage device that uses a long plastic

strip coated with a magnetic material as a recording medium?

- A. Compact disk
  - B. Hard disk
  - C. Magnetic tape
  - D. None of the above
5. Which generation of computers use very large-scale integration (VLSI)?
    - A. First generation
    - B. Second generation
    - C. Third generation
    - D. Fourth generation.
  6. All of the following are portable computers except;
    - A. Video game consoles
    - B. Laptop computers
    - C. Notebook computers
    - D. Tablet computers
  7. A tablet is a computer that looks like a notebook computer, accepts data that can be entered using;
    - A. a keyboard

Turn

- B. a touch screen  
C. a digitizing tablet  
D. all of the above
8. The Apple watch® is an example of  
A. a wearable computer  
B. an embedded computer  
C. a first-generation computer  
D. a video game console
9. An embedded computer can be found in a .....  
A. laptop computer  
B. desktop computer  
C. washing machine  
D. notebook computer
10. What is the recommended resolution for images used in a desktop-published document?  
A. 72dpi  
B. 300 dpi  
C. 600 dpi  
D. 1200 dpi
11. Which one of the following is not a means of delivering a presentation using PowerPoint?  
A. Slide show on a PC  
B. Printed handout  
C. Handwritten notes  
D. Digital projection
12. Which one is not a pane in the Normal view?  
A. Outline pane  
B. Slide Development pane  
C. Slide Show pane  
D. Notes pane

Use the statement below to answer questions 13 to 15.

Dim Mynumber As Integer

Mynumber = 5

If mynumber > 0 Then

MsgBox "The condition

evaluates to true."

End If

13. What type of data is stored in the variable Mynumber?  
A. String  
B. Boolean  
C. Integer  
D. Double
14. Which statement is used to declare variable in the code?  
A. Mynumber = 5  
B. If mynumber > 0 Then  
C. Dim Mynumber As Integer  
D. End If
15. What condition is being tested in the "If statement"?  
A. If Mynumber equals 0  
B. If Mynumber is less than 0  
C. If Mynumber is greater than 0  
D. If Mynumber is equal to 5
16. Arrangement of student position in orderly manner represents.....  
A. Selection.  
B. Iteration.  
C. Decomposition.  
D. Abstraction.
17. Which of the following technologies is used by smart self-driving cars?  
A. Machine learning.  
B. Artificial Intelligence.  
C. Neural Network  
D. All of the above.
18. The application of game principles to solve real-world problems is known as.....  
A. Entertainment  
B. Gaming.  
C. Gameplay  
D. Gamification.
19. All the following are applications of machine learning except.....  
A. Simulation of the human brain  
B. Image recognition.

- C. Handwriting recognition.
- D. Speech recognition.

20. Which of the following allows users to edit entered data?
- A. Name box.
  - B. Formula bar.
  - C. Tabs.
  - D. Layout
21. Which of the following number formats should be used for the data "Gh¢100"?
- A. Date.
  - B. Time.
  - C. Number.
  - D. Currency.
22. Which of the following number formats should be used for the data "25-Dec-19"?
- A. Date.
  - B. Time.
  - C. Number.
  - D. Currency.
23. Which number format displays data exactly as it was typed?
- A. Number
  - B. General.
  - C. Accounting.
  - D. Scientific.
24. What kind of attempts are made by individuals to obtain confidential information from a person by falsifying their identity?
- A. Computer viruses
  - B. Spyware scams
  - C. Phishing scams
  - D. None of the above
25. Which of the following topologies requires a central controller or hub?
- A. Star.
  - B. Mesh.
  - C. Ring.
  - D. Bus.

26. Binary Coded Decimal (BCD) numbers are obtained by.....
- A. converting decimal numbers to octal.
  - B. converting binary numbers to decimal.
  - C. representing each decimal digit in a binary sequence.
  - D. representing each hexadecimal digit as a binary sequence.
27. How much is one terabyte equal to?
- A. 1024 megabytes
  - B. 1024 bytes
  - C. 1024 kilobytes
  - D. 1024 gigabytes
28. The shortcut key to open My Computer is
- A. Windows Logo + E
  - B. Windows Logo + A
  - C. Windows Logo + M
  - D. None of the above
29. The feature provided by a desktop publication application to assist a user with the placement and alignment of one object to another object is called....
- A. Grids.
  - B. Guides.
  - C. Handles.
  - D. Rules
30. Which of the following error messages in a Spreadsheet application indicates a cell reference error?
- A. #REF!
  - B. #DIV/o!
  - C. #NAME?
  - D. #VALUE!
31. Which of the following devices is not a page printer?
- A. Bubble printer.
  - B. Inkjet Printer.

**Turn Over**

- C. Laser printer.  
D. Dot Matrix printer.
32. The motherboard is regarded as the most important component of the computer because it...
- is the largest component.
  - is the most expensive component.
  - connects all other components of the computer.
  - stores all the information and configurations in the computer.
33. The following devices are used to capture graphics, sound, or video into the computer except.....
- microphone.
  - webcam.
  - digital camera.
  - game pad.
34. Which of the following entries is a correctly entered formula in a spreadsheet application?
- =9A: B9
  - =MAX(A1:A10)
  - SALESFIGURES
  - =AVERAGE-C17\*C18)
35. Which of the following shortcut key commands enables a user to move to the previous worksheet on a spreadsheet application?
- Ctrl + PgUP
  - Ctrl + PgDn
  - Ctrl + Tab.
  - Shift + Tab
36. Loss of power and unauthorized change in the functional unit of hardware come under the problems and issues of the physical layer.
- True
  - False
37. There are..... main alignments
- 5
  - 4
  - 3
  - 2
38. The difference between a virus and a self-replicating program that is like a virus is that, rather than creating copies of itself on only one system, it propagates through a computer network. What is the self-replicating program called?
- Keylogger
  - Cracker
  - Worm
  - All of the above
39. Convert the decimal 453 to a Binary number.
- 100001101<sub>2</sub>
  - 110001101<sub>2</sub>
  - 001110111<sub>2</sub>
  - 110000011<sub>2</sub>
40. Convert the decimal 1322 to hexadecimal.
- 53C<sub>16</sub>
  - 52CA<sub>16</sub>
  - 25A<sub>16</sub>
  - 52A<sub>16</sub>
